### **DETAILED ACTION**

Applicant's eIDS has been considered, and the references have been listed on the attached PTO-892. Moreover, the previous rejection under 35 U.S.C. 112, second paragraph is withdrawn.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,3,9,11,13,15,17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Young et al. in view of Denov et al.

Young et al. (applied before in a previous Office Action) discloses all features claimed, but does not explicitly disclose exclusive-OR comparing. Denov et al. disclose a tuning device similar to Applicant's invention, which comprises exclusive-OR gates 146,170 for signal comparison. It would have been obvious to adapt the Young teachings with those of Denov, as exclusive-OR comparing is functionally equivalent to the signal comparing utilized by Young.

Claims 19-68 are allowed.

Art Unit: 2837

Claims 2,4-8,10,12,14,16,18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, and any 112 rejections.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mochida et al. and Pawate also disclose the use of exclusive-OR comparing. Rose et al., Uchiyama are further cited to show related teachings in the art.
